Responsive Web Design
Redux Bootstrap
Figma Design Java SQL

Soft Skills

Problem Solving
Effective Communication
Teamwork
Time Management

HARSHAL KALE

Full Stack Web Developer

Professional Summary

Accomplished Full Stack Web Developer with expertise in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Notable ability in harnessing Generative AI for development tasks. Proficient in learning new technologies swiftly, ensuring high-quality, scalable web applications. Strong collaboration and problem-solving skills.

Projects

Pet Pals [Live Demo Link](#) [Github Repo Link](#)

- Node.js — Express.js MongoDB React
- Designed and developed server-side APIs using Node.js and Express.js, ensuring efficient data handling and server communication.
 - Implemented dynamic frontend components with React to facilitate seamless user interactions and pet browsing.
 - Created and optimized MongoDB database models for efficient storage and retrieval of pet and user data.

Frank and Oak [Live Demo Link](#) [Github Repo Link](#)

- HTML5 CSS3 JavaScript JSON Server —
- Developed an online shopping application with functionalities for a seamless user experience, using the MERN stack.
 - Implemented backend card creation, sorting functions, and cart functionalities.
 - Designed an admin panel and performed CRUD operations, ensuring versatile user and admin interactions.

Reliance World [Live Demo Link](#) [Github Repo Link](#)

- HTML5 CSS3 Bootstrap — sass
- Collaborated with the team to design and implement responsive web pages using HTML5, CSS3, and Bootstrap for an electronics retail website.
 - Contributed to the styling and layout of the product pages, ensuring a clean and user-friendly interface.
 - Assisted in integrating Sass for more efficient and modular CSS code management.
 - Participated in code reviews to maintain code quality and consistency throughout the project.
 - Worked closely with designers to translate design mockups into functional web components.
